HEALTH
& REHAB
SCANDINAVIA

Danish Rehabilitation Group invites the entire industry and all actors in the social, healthcare and assistive technology sectors to become a part of Scandinavia's largest trade exhibition

Health & Rehab Scandinavia 2014 brings together a large number of key persons from the social, healthcare and assistive technology sectors.

In 2014 the exhibition sets focus on "An Independent Life" with a further development of the traditional exhibition with associated specific subject conferences and other events which caters to various actors in the social, healthcare and assistive technology sectors. In 2014 the exhibition is held together with Scanlab, which is primarily aimed at laboratory and diagnostic industry. Visitors can walk freely between the two exhibitions under the same roof.

Get in touch with the right persons

The exhibition offers a unique opportunity to present your company in the right forum and of getting in touch with many key persons from the social, healthcare and assistive technology sectors.

During the exhibition you may communicate knowledge, display your products, arrange workshops and talk with your customers and other interested parties.
